

Project Objective/s

Practical training in “natural forest management” for Ukrainian foresters

Expected Output/s

- **Target group:**
 - Political and technical decision-makers and, above all, forestry practitioners
 - 20 people per training block
- **Contact person for the training:**
 - Arbeitsgemeinschaft Naturgemäße Waldwirtschaft Deutschland e.V.
 - goltz@anw-deutschland.de
- **Training location:** Eibenstock forestry operation in Saxony and the surrounding area
- **Organizer:** ANW regional group Saxony, Stephan Schusser and team
- **Training dates:** 23-27.09.2024 and 07-12.07.2025
- **Training content:**
 - Basics of natural forest management
 - Treatment of calamity areas
 - Forest development
 - Logging planning and implementation
 - Hunting strategy
 - Ecological elements for stabilizing the forest ecosystem
 - Monitoring in forestry incl. Marteloscopes
- **Outlook:**
 - Only managers took part in the first training block. The second training block is mainly reserved for practitioners. It is currently being examined whether further training courses should be offered in the coming years.
 - The following topics should also be covered in further training courses:
 - o Forest protection
 - o Natural regeneration
 - o Marketing
 - o Hunting legislation
 - o Timber marketing

Duration of implementation

01.06.2024-30.11.2025

Total budget (EUR, gross)

84.204,72 €

Ukrainian partners

Ukrainian foresters from the top of the administration to the practitioners
